

Section 2 - CLAIMS TRACKING MASTER MENU

Claims Tracking Menu for Billing
Claims Tracking Menu (Combined Functions)
Claims Tracking Menu (Hospital Reviews)*
Claims Tracking Menu (Insurance Reviews)*

*Documentation for the options contained in these menus can be found under the Claims Tracking Menu (Combined Functions) portion of this section.

Option Overview

CLAIMS TRACKING MENU FOR BILLING

CLAIMS TRACKING EDIT - See Claims Tracking Edit option under Claims Tracking Menu (Combined Functions).

PRINT CT SUMMARY FOR BILLING - See Print CT Summary for Billing option under Claims Tracking Menu (Combined Functions).

ASSIGN REASON NOT BILLABLE - Allows you to flag an inpatient or outpatient visit, or Rx refill as billable or non-billable by assigning a Reason Not Billable.

THIRD PARTY JOINT INQUIRY - Provides information needed to answer questions from insurance carriers regarding specific bills or episodes of care.

CLAIMS TRACKING MENU (COMBINED FUNCTIONS)

PENDING REVIEWS - Uses a series of screens to display all pending reviews that have a pending review date within the last seven days.

CLAIMS TRACKING EDIT - Allows entering/editing of Claims Tracking Entries. It is the main gateway to most Claims Tracking functions.

SINGLE PATIENT ADMISSION SHEET - Allows you to print an admission sheet for a single visit (either the current admission or a selected admission).

INSURANCE REVIEW EDIT - Uses a series of screens to allow you to enter and edit MCCR/UR related contacts associated with a claims tracking entry.

APPEAL/DENIAL EDIT - Allows you to enter, edit, and track the appeals for either a patient or an insurance company.

INQUIRE TO CLAIMS TRACKING - Displays or prints stored information about a single visit.

SUPERVISORS MENU (CLAIMS TRACKING)

MANUALLY ADD OPT. ENCOUNTERS TO CLAIMS TRACKING -

Outpatient encounters that have been checked out through the Scheduling module are normally added during the IB nightly background job. Only primary outpatient encounters that have been checked out will be added in the first twenty days after the date of the encounter. This option allows you to search for outpatient encounters that were not checked out within twenty days and automatically add them to Claims Tracking.

CLAIMS TRACKING PARAMETER EDIT - Allows you to edit MCCR site parameters that affect the Claims Tracking module.

MANUALLY ADD RX REFILLS TO CLAIMS TRACKING - Prescription refills that have been released within ten days of the fill date are automatically added during the IB nightly background job. This option allows you to search for refills that were not released within ten days and automatically add them to Claims Tracking.

REPORTS MENU (CLAIMS TRACKING)

UR ACTIVITY REPORT - The UR Activity Report includes **total** activity during the date range. It provides a detailed listing of the Insurance Reviews, Hospital Reviews, or both for the selected dates; a summary report by admission; and a summary report by specialty.

PRINT CT SUMMARY FOR BILLING - Provides detailed information about a visit for use by billers when entering claims, or answering questions about claims.

DAYS DENIED REPORT - Prints a summary or detailed listing of denials. It can be sorted by patient, attending physician, or bed service (i.e., surgery, psychiatry, medicine).

MCCR/UR SUMMARY REPORT - Prints a summary of hospital activity by either admission or discharge for a specified date range including the number of reviews.

LIST VISITS REQUIRING REVIEWS - Prints a list of visits that require either an insurance review, hospital review or both. Only visits that are admissions are included.

REVIEW WORKSHEET PRINT - This option is similar to the Review Worksheet action on the Insurance Review screen. A worksheet for a current inpatient can be printed containing demographic data and information about current room/bed, ward, and provider.

SCHEDULED ADMISSIONS W/INSURANCE - Prints a list of scheduled admissions in Claims Tracking for insured patients. Included are patients with past scheduled admissions and scheduled admissions up to three days into the future.

PENDING WORK REPORT - Prints a Pending Work List similar to the Pending Reviews option. The list can be sorted by who the review is assigned to, due date, patient, type of review, or by current ward of the patient, for either Insurance Reviews, Hospital Reviews, or both.

UNSCHEDULED ADMISSIONS W/INSURANCE - Prints a list of patients who were insured on their admission date and were unscheduled admissions. In addition, it prints information about the number of reviews completed and the insurance company actions.

HOSPITAL REVIEWS - Allows entry of the utilization management information required by the Quality Management office. Hospital reviews are the application of Interqual criteria to determine if the admission or continued stay meets specific criteria.

CLAIMS TRACKING MENU (HOSPITAL REVIEWS) - Option overviews are located under Claims Tracking Menu (Combined Functions).

CLAIMS TRACKING MENU (INSURANCE REVIEWS) - Option overviews are located under Claims Tracking Menu (Combined Functions).

Task Chart

The following chart lists tasks taken from questions most commonly asked during testing of the Claims Tracking software and how they might be accomplished.

To accomplish this...	Do this...
<i>Print a screen when you don't have a slave printer</i>	Type PL (Print List) from any screen to print the entire list region including headers.
<i>Let the computer remind you when a case should be reviewed again</i>	Go into either the Hospital Reviews or Insurance Reviews screen, at the NEXT REVIEW DATE field enter the date you would like to review this case again. It will appear on the Pending Work Report for that day.
<i>Remove pending items from the Pending Work Report</i> <i>(Especially after installation of this software, you might have items appearing on the list that do not actually require follow-up.)</i>	Print the list (Pending Work Report); mark the cases you wish to follow; go into the Pending Reviews option; at the "Select Action:" prompt enter "RL" (Remove From List); enter the corresponding number(s) from the list of the cases you wish to delete. This removes the entry from the list, but not from Claims Tracking. HINT: You can use abbreviations such as RL=3-8 to remove items 3 thru 8; however, on a list screen you can only select items that are shown. Taking an action such as RL=3-99 won't work.
<i>Print a list of random sample patients</i>	Go into the List Visits Requiring Reviews option; include only Hospital Reviews and answer YES to "List Admissions Only?". Accept the default at the "START WITH PATIENT:" prompt, and enter the date range you want.

To accomplish this...	Do this...
<i>Print a summary of Hospital Reviews</i>	UR Activity Report - prints cases reviewed and the results Inquire to Claims Tracking - prints visit, billing, and insurance information for a single visit, and lists all reviews performed Print CT Summary for Billing - visit, insurance, billing, eligibility
<i>Have one person enter data, and another review and "complete" it.</i>	The person entering the data should give the review a status of PENDING. The person reviewing/approving should then use the Inquire to Claims Tracking or Print CT Summary for Billing option to print the reviews. Then go into the Insurance Reviews Edit or Hospital Reviews option to edit, if necessary, then use the CS (Change Status) action on these screens to update the status to COMPLETE.

Claims Tracking Menu for Billing
Assign Reason Not Billable

INTRODUCTION This option allows you to flag an inpatient or outpatient visit, or Rx refill as billable or non-billable by assigning a Reason Not Billable. If there is no Reason Not Billable assigned, the billing information can be entered into Claims Tracking for the visit.

Due to the brevity of this option, no process chart is provided.

Claims Tracking Menu for Billing Assign Reason Not Billable

EXAMPLE

The following example shows what might appear on your screen while using this option. User responses appear in boldface type.

Assign Reason Not Billable to Claims Tracking Entry

Select PATIENT NAME: **GRAY,JOHN E** 01-01-40 222338888 YES NSC
VETERAN

Select VISIT: 500359// **<RET>** GRAY,JOHN E 01-13-94 URGENT INPATIENT
ADMISSION

REASON NOT BILLABLE: **??**

Enter the primary reason this episode of care should not be billed to an insurance company.

If a reason not billable is entered, then this episode will no longer appear on reports as billable and will not be used by the automated biller as a billable event.

ADDITIONAL COMMENT: **?**

If necessary, use this field for a brief additional explanation of why this case isn't billable. Answer must be 3-80 characters in length.

ADDITIONAL COMMENT: **<RET>**

Claims Tracking Menu (Combined Functions)

Pending Reviews

INTRODUCTION This option uses a series of screens to display all pending reviews that have a pending review date within the last seven days. Each day, a Pending Review List should be printed sorted by ward, patient, assignment or date and used on the ward to perform reviews. The Pending Reviews option may then be used to perform all necessary actions on the reviews. This option is available to individuals who do Insurance Reviews, Hospital Reviews or both. If the user performs both types of reviews, a plus sign (+) will appear by the names of patients needing both types of review. On admission, appropriate reviews are automatically made pending for the day they are added. Please refer to the Insurance Reviews and Hospital Reviews option documentation for information on when reviews are automatically created.

For examples of screens accessed while using this option, please refer to the example section of the appropriate option documentation (i.e., Claims Tracking Edit option for the Claims Tracking Entry Screen, Hospital Reviews option for the Hospital Review Screens, etc.).

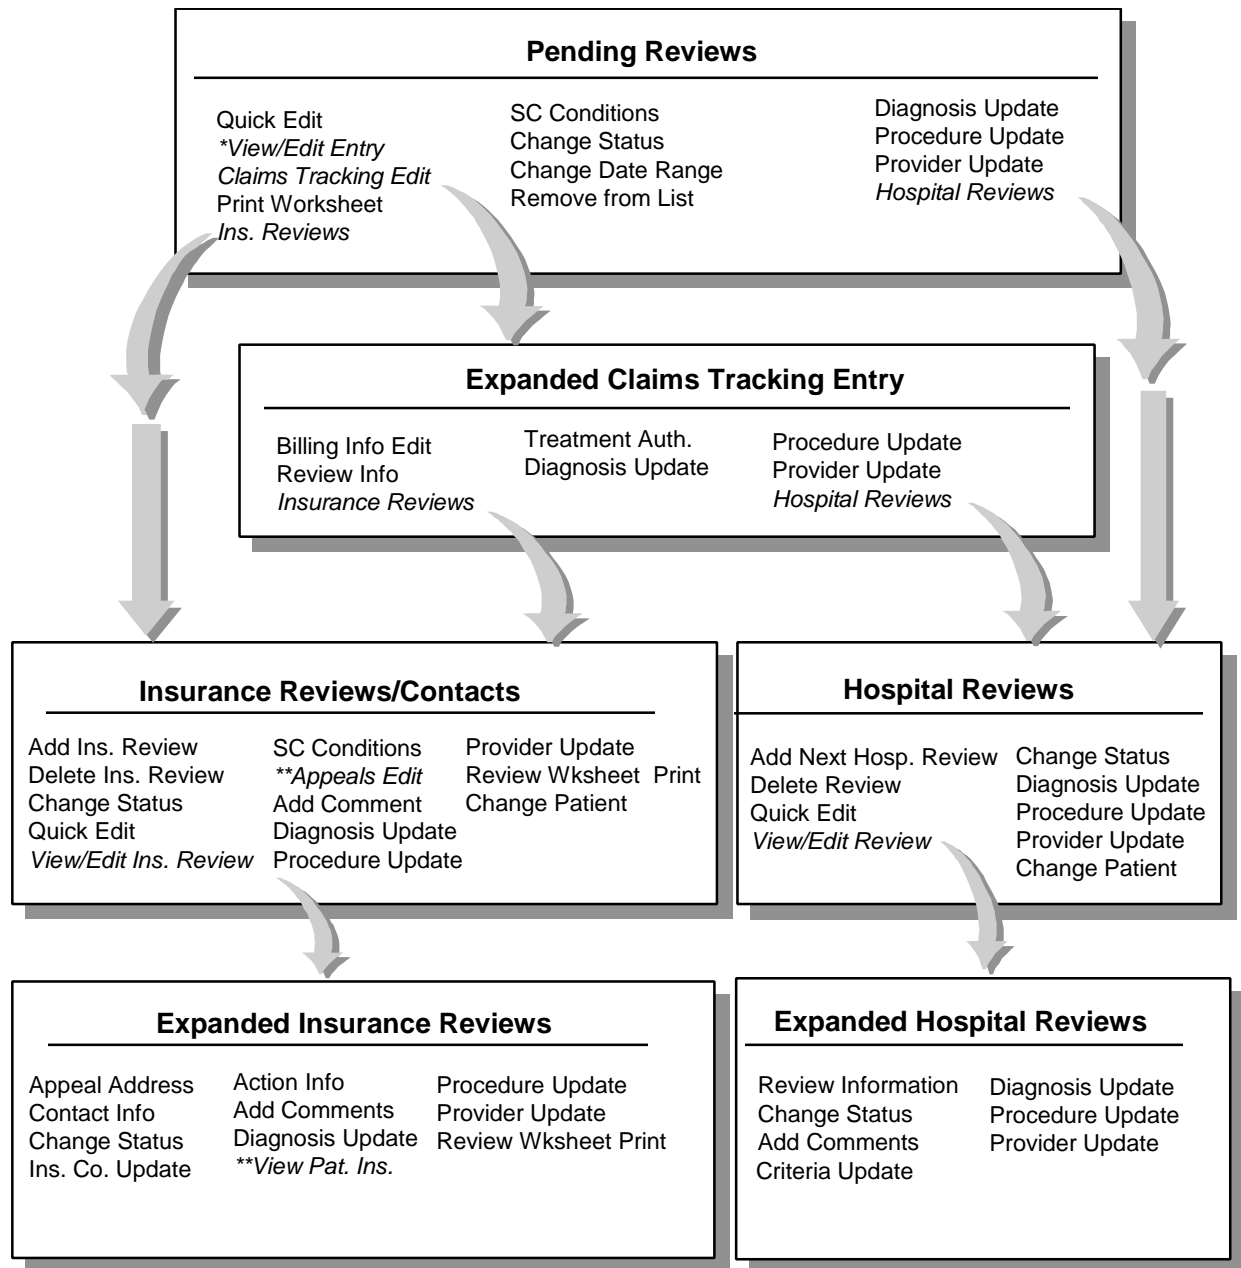

The chart on the following page shows the Claims Tracking Screens accessed through this option and the actions available on each screen. Actions shown in *italics* bring you to other screens (indicated by the arrows). Actions may not be shown in the order in which they actually appear on the screens.

Claims Tracking Menu (Combined Functions)

Pending Reviews

INTRODUCTION

cont.

*The View Edit Entry action will take you directly to the Expanded Insurance or Expanded Hospital Reviews Screens depending on the type of review.

**The View Pat. Ins action brings you to the Patient Insurance Screens. The Appeals Edit action brings you to the Appeal and Denial Tracking screen. Please refer to the Patient Insurance Menu and the Appeal/Denial Edit option for details.

Claims Tracking Menu (Combined Functions)
Pending Reviews

INTRODUCTION

cont.

About the Screens...

In the top left corner of each screen is the screen title. A plus sign (+) at the bottom left of the screen indicates there are additional screens. Left or right arrows (<<< >>>) may be displayed to indicate there is additional information to the left or right on the screen. Available actions are displayed below the screen. Two question marks entered at any "Select Action" prompt displays all available actions for that screen. For more information on the use of the screens, please refer to the appendix at the end of this manual.

You may quit from any screen, which will bring you back one level or screen, or you may exit (this exits the option entirely and returns you to the menu).

Common Actions

The following actions are common to more than one screen accessed through this option. They are listed here to avoid duplication of documentation.

Quick Edit - This action allows you to quickly edit all information about the review without leaving the Pending Review option.

SC Conditions - This action allows a quick look at the patient's eligibility, SC status, service-connected conditions, and percent of service connection for service-connected veterans.

Change Status - This action allows you to quickly change the status of a review. Only completed reviews are used in the report preparation and by the MCCR NDB roll-up or the QM roll-up (which is tentatively scheduled for release in June 1994).

Reviews have a status of ENTERED when automatically added. A status of PENDING may be used for those you are still working on or when one person does the data entry and another needs to review it.

Claims Tracking Menu (Combined Functions)
Pending Reviews

INTRODUCTION
cont.

Add Comment - This action allows you to edit the word processing (comments) field in Hospital or Insurance Reviews without having to edit other fields.

Diagnosis Update - This action allows input of ICD-9 diagnoses for the patient. Whether diagnoses are input on this screen or another screen, they are available across the Claims Tracking module. You may enter an admitting diagnosis, primary (DXLS) diagnosis, secondary diagnosis and the onset date of the diagnosis for this admission. For outpatient visits this information is stored with the outpatient encounter information.

Procedure Update - This action allows the input of ICD-9 procedures for the patient. You may input the procedure and the date. This is a separate procedure entry from the PTF module and is optional for use.

Provider Update - This action allows you to input the admitting physician, attending physician, and care provider separate from the MAS information. The purpose is to provide a location to document the attending physician and to provide an alternate place to document individual physicians if the administrative record indicates teams, or vice versa.

Change Patient - This action allows you to change the selected patient without having to leave and reenter the option.

Review Worksheet Print - This action prints a worksheet for use on the wards for writing notes prior to calling the insurance company and entering the review. Basic information about the patient and the visit is included. Please note that the format is slightly different for 80 and 132 column outputs.

Claims Tracking Menu (Combined Functions) Pending Reviews

INTRODUCTION
cont. Following is a list of the screens, the actions they provide, and a brief description of each action. Actions shown in *italics* access other screens.

Pending Reviews Screen

View/Edit Entry - This action allows you to jump to either the expanded Insurance Review screen or the expanded Hospital Review screen, depending on the type of review.

Claims Tracking Edit - This action allows you to jump to the expanded Claims Tracking screen and perform all necessary edits to the entry in that file. This may include the input of billing information.

Print Worksheet - This action allows you to print a generic worksheet for selected entries. The latest administrative data is printed on the worksheet including patient name, ward, physicians, room-bed, etc.

Insurance Reviews - This action allows you to jump to the Insurance Reviews Screen. For details see the Insurance Reviews option documentation. Please note that if you try to perform an Insurance Review on a pending Hospital Review, the software will automatically take you to the Hospital Review screen. This action is not available on the Claims Tracking Menu (Hospital Reviews).

Hospital Reviews - This action allows you to jump to the Hospital Reviews screen. For details see the Hospital Reviews option documentation. Please note that if you try to perform a Hospital Review on a pending Insurance Review, the software will automatically take you to the Insurance Review screen. This action is not available on the Claims Tracking Menu (Insurance Reviews).

Change Date Range - This action allows you to change the beginning and ending date of the search for pending reviews. You can search into the past or future for pending reviews. Reviews for the past 7 days is the default.

Claims Tracking Menu (Combined Functions) Pending Reviews

INTRODUCTION cont.

Remove From List - This action allows you to quickly remove the review from the Pending Review List by automatically deleting the Next Review Date. For Insurance Reviews, the TRACK AS INSURANCE CLAIM field is also asked. If this is set to NO, no further reviews are automatically created for this visit.

On installation of IB V. 2.0, current inpatients with insurance are loaded. This action can be used to remove those you are not following.

Expanded Claims Tracking Entry Screen

Billing Info Edit - This action allows you to edit the billing information about expected revenues and next auto bill date. This is useful for comparing expected revenues versus what was received.

Review Info - This action allows you to review/edit whether or not a special consent release of information form (ROI) for this patient for this episode of care is required, obtained, or not necessary; and whether this review should be tracked as a random sample, insurance claim, special condition, or local addition.

Treatment Auth. - This action allows you to enter whether a second opinion for this patient insurance policy was required and obtained. (If a second opinion was obtained but did not meet the insurance company's criteria, enter NO in the SECOND OPINION OBTAINED field.) This field will be used to help determine the estimated reimbursement from the insurance carrier. If a second opinion was not obtained, certain denials and penalties may be assessed.

Hospital Reviews - This action accesses the Hospital Reviews Screen.

Insurance Reviews - This action accesses the Insurance Reviews/Contacts Screen.

Claims Tracking Menu (Combined Functions)
Pending Reviews

INTRODUCTION
cont.

Insurance Reviews/Contacts Screen

Add Ins. Review - This action will add a new review for the visit. Following are the default review types.

- Pre-certification Review (if it is a scheduled admission and no previous review)
- Urgent Admission review (if it is not a scheduled admission and no previous review)
- Continued Stay Review (for follow-up reviews)

Delete Ins. Review - This action allows an insurance review to be deleted. If a review is automatically created, but the visit does not require reviews and follow-up with the insurance company, it can be deleted. Use care in exercising this action. It can be as important to document that no review is required as it is to document the required reviews.

View/Edit Ins. Review - This action allows access to the Expanded Insurance Reviews Screen.

Appeals Edit - This action allows you to jump to the Appeals and Denials Screen. For details see the Appeals and Denials option. Only denials and penalties may be appealed. This action is not available on the Claims Tracking for Hospital Reviews option.

Expanded Insurance Reviews

Appeal Address - This action allows you to edit the appeals address information for the insurance company.

Contact Info - This action allows you to enter/edit the review date, person contacted, method of contact, phone and reference numbers.

Ins. Co. Update - This action allows you to view/edit the billing, precertification, verification, claims, appeals, and inquiry phone numbers for the insurance company.

Claims Tracking Menu (Combined Functions)
Pending Reviews

INTRODUCTION
cont.

Action Info - This action allows you to view/edit information pertaining to action taken on a review such as type of contact, care authorization from and to dates, authorization number, and review date and status.

View Pat. Ins. - This action takes you to the Patient Insurance Screens. Please refer to the Patient Insurance Menu documentation.

Hospital Reviews Screen

Add Next Hosp. Review - This action will add the next review and automatically set it to either an admission review or continued stay review. The day for review and review date are automatically computed but can be edited. The category of severity of illness and intensity of service that was met can be entered; or if not met, the reason it wasn't met.

Delete Review - This action allows a hospital review to be deleted. If a review is automatically created, but the visit does not require reviews and follow-up with the insurance company, it can be deleted. Use care in exercising this action. It can be as important to document that no review is required as it is to document the required reviews.

View/Edit Review - This action allows access to the Expanded Hospital Reviews Screen.

Expanded Hospital Reviews Screen

Review Information - This action allows you to enter/edit the type of review (admission or continued stay), review date, and the specialty and methodology for the review. There should be only one admission review for an admission. Normally, reviews are done for UR purposes on days 3, 6, 9, 14, 21, 28, and every 7 days thereafter. (Usually, the INTERQUAL method is used as the methodology for UR required review. Insurance carriers may require other review methodologies.)

Claims Tracking Menu (Combined Functions)
Pending Reviews

INTRODUCTION Criteria Update - This action allows you to enter or edit data
cont. regarding criteria met/not met for an acute admission within
24 hours, such as the review date and methodology; severity of
illness and intensity of service; and whether additional
reviews are required

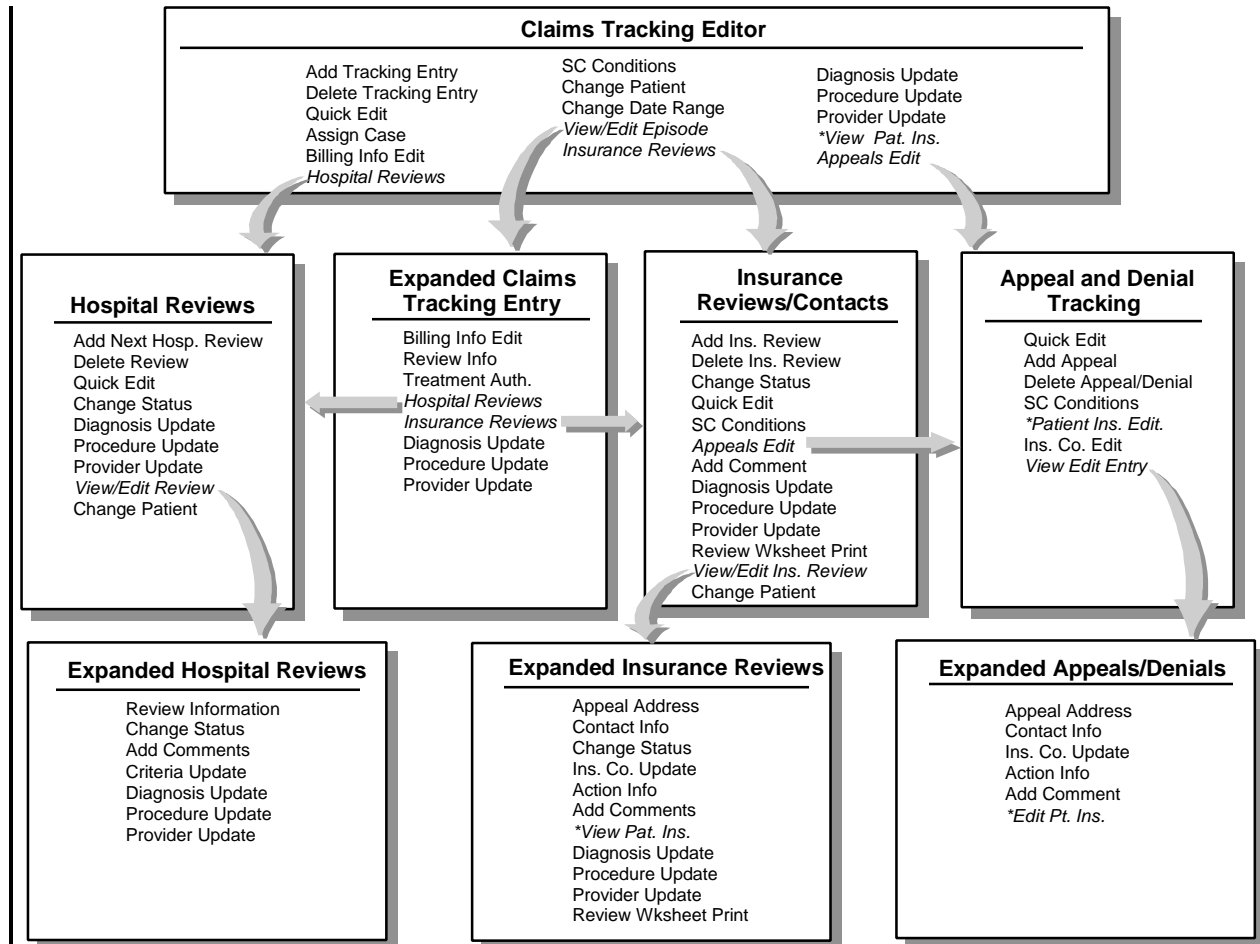

Claims Tracking Menu (Combined Functions)
Claims Tracking Edit

INTRODUCTION This option allows entering/editing of Claims Tracking Entries. Data associated with a CT entry may affect if or how it is billed and the types of reviews that may or must be entered. It is the main gateway to most Claims Tracking functions. Each visit, whether inpatient, outpatient, or prescription refill, has a unique entry where it is tracked to see whether or not it is billable. Normally, only visits of insured patients are tracked; however, all visits may be tracked. You can edit information about anticipated revenues and required reviews with this option, and perform a number of maintenance and clinical update edits. Depending on how your site parameters are set, admissions, outpatient visits, and prescription refills may be added automatically. If you are using the Scheduled Admissions module of the PIMS software, scheduled admissions will also be added.

The chart on the following page shows the Claims Tracking Screens accessed through this option and the actions available on each screen. Actions shown in *italics* bring you to other screens (indicated by the arrows). Actions might not be shown in the order in which they actually appear on the screens.

INTRODUCTION
cont. Following is a list of the screens, the actions they provide, and a brief description of each action. Actions shown in *italics* access other screens.

Claims Tracking Editor Screen

Add Tracking Entry - This action can be used to add an entry to be tracked if it was not automatically added. This will most commonly be used to add old visits or to add scheduled admissions if you are not using the scheduled admission package. After installation, this action should be used to add past admissions for Quality Management required reviews.

Delete Tracking Entry - This action allows you to delete a tracking entry. If for some reason an entry was mistakenly added, use this action to delete the entry; however, if there is associated data with a review, it is preferable to inactivate the entry rather than delete it. Deleting a tracking entry will automatically delete all associated reviews.

Assign Case - This action allows you to assign a visit to a reviewer. This is useful in sorting pending reviews by the reviewer to whom they are assigned. Insurance and hospital reviews can be assigned separately.

Billing Info Edit - This action allows you to edit the billing information about expected revenues and next auto bill date. This is useful for comparing expected revenues versus what was received.

View/Edit Episode - This action allows you to jump to the Expanded Claims Tracking Screen where you can view data on a specific episode/visit and perform related actions.

Hospital Reviews - This action allows you to jump to the Hospital Reviews Screen. For details please refer to the Hospital Reviews option. This is not available on the Claims Tracking for Insurance Reviewers option.

Insurance Reviews - This action allows you to jump to the Insurance Reviews Screen. For details see the Insurance Reviews option. This is not available on the Claims Tracking for Hospital Reviewers option.

Appeals Edit - This action allows you to jump to the Appeals and Denials Screen. For details see the Appeals and Denials option.. Only denials and penalties may be appealed. This is not available on the Claims Tracking for Hospital Reviews option.

Change Date Range - This action allows you to change the default date range for the list of visits. Normally only the past year's visits are displayed, including any current admission. If you wish to view or take action on a visit outside of the current year, use this action to select the correct date range. Note that for inpatient care, the admission date is used.

Expanded Claims Tracking Entry Screen

Billing Info Edit - This action allows you to edit the billing information about expected revenues and next auto bill date. This is useful for comparing expected revenues versus what was received.

Review Info - This action allows you to review/edit whether or not a special consent release of information form (ROI) for this patient for this episode of care is required, obtained, or not necessary; and whether this review should be tracked as a random sample, insurance claim, special condition, or local addition.

Claims Tracking Menu (Combined Functions)
Single Patient Admission Sheet

INTRODUCTION This option allows you to print an admission sheet for a single visit (either the current admission or a selected admission). The admission sheet serves as a temporary cover sheet in the inpatient chart where reviewers and coders can make notes about the visit in summary form. If the facility chooses to have physicians sign the admission sheet, it can then be used as documentation to prepare inpatient bills prior to the signing of the discharge summary.

Due to the brevity of this option, no process chart is provided.

Claims Tracking Menu (Combined Functions) Insurance Review Edit

INTRODUCTION This option uses a series of screens to allow you to enter and edit MCCR/UR related contacts associated with a claims tracking entry.

An initial review is automatically created upon admission for all insured patients. If UR is not required for the patient, the review can be deleted, inactivated, or left in an ENTERED status. If reviews are performed, and contact with the insurance company is made, the following information can be documented through this option.

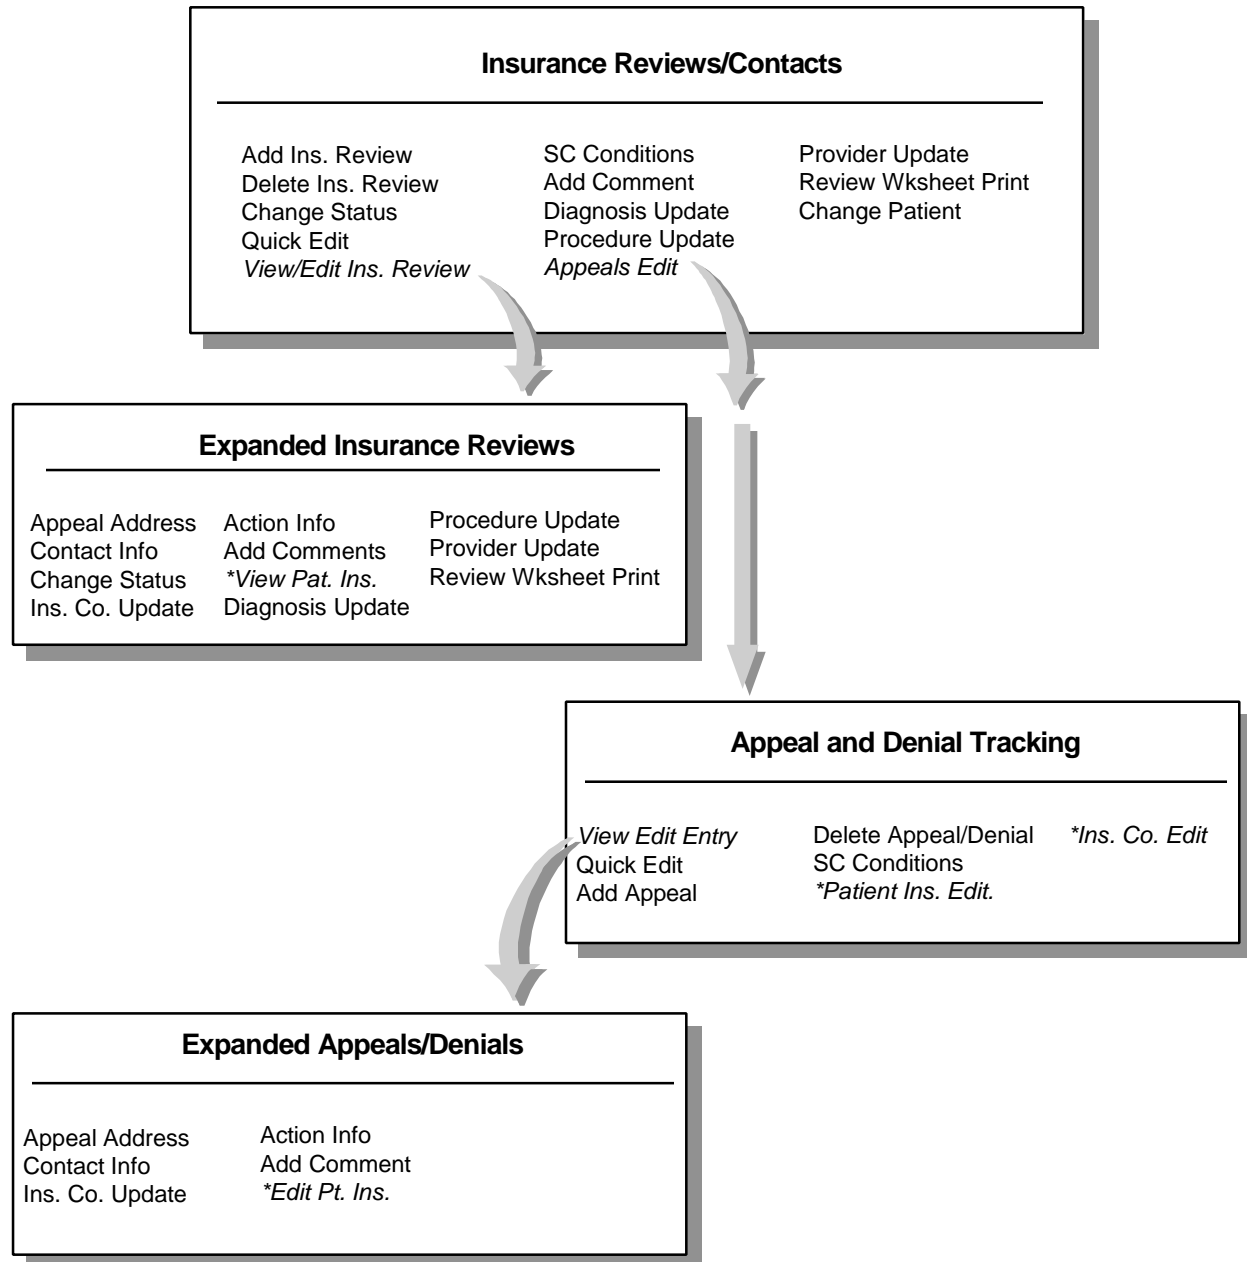

- Contact with the insurance company
- Action taken by the insurance company
- Relevant clinical information
- The need for further reviews

Once a review or entry is complete, its status should be updated to COMPLETE in order to be used in reporting. If further reviews are required, the NEXT REVIEW DATE should contain the date the next review is required. It will then appear in the Pending Reviews option or the Pending Reviews List.

The chart on the following page shows the Claims Tracking Screens accessed through this option and the actions available on each screen. Actions shown in *italics* bring you to other screens (indicated by the arrows). Actions may not be shown in the order in which they actually appear on the screens.

Claims Tracking Menu (Combined Functions)

Insurance Review Edit

*These actions bring you to the Patient Insurance Screens. Please refer to the Patient Insurance Menu section of this manual for documentation of these screens.

Claims Tracking Menu (Combined Functions) Insurance Review Edit

INTRODUCTION

cont.

About the Screens...

In the top left corner of each screen is the screen title. A plus sign (+) at the bottom left of the screen indicates there are additional screens. Left or right arrows (<<< >>>) may be displayed to indicate there is additional information to the left or right on the screen. Available actions are displayed below the screen. Two question marks entered at any "Select Action" prompt displays all available actions for that screen. For more information on the use of the screens, please refer to the appendix at the end of this manual.

You may quit from any screen, which will bring you back one level or screen, or you may exit (this exits the option entirely and returns you to the menu).

Common Actions

The following actions are common to more than one screen accessed through this option. They are listed here to avoid duplication of documentation.

Quick Edit - This action allows you to edit most of the fields in Claims Tracking, specify if there should be insurance or hospital reviews, add billing information, and assign the visit to a reviewer.

SC Conditions - This action allows a quick look at the patient's eligibility, SC status, service-connected conditions, and percent of service connection for service-connected veterans.

Diagnosis Update - This action allows input of ICD-9 diagnoses for the patient. Whether diagnoses are input on this screen or another screen, they are available across the Claims Tracking module. You may enter an admitting diagnosis, primary (DXLS) diagnosis, secondary diagnosis, and the onset of the diagnosis for this admission. For outpatient visits, this information is stored with the outpatient encounter information.

Claims Tracking Menu (Combined Functions)
Insurance Review Edit

INTRODUCTION
cont.

Procedure Update - This action allows the input of ICD-9 procedures for the patient. You may input the procedure and the date. This is a separate procedure entry from the PTF module and is optional for use.

Provider Update - This action allows you to input the admitting physician, attending physician, and care provider separate from the MAS information. The purpose is to provide a location to document the attending physician and to provide an alternate place to document actual physicians if the administrative record indicates teams or vice versa.

Change Status - This action allows you to quickly change the status of a review. Only completed reviews are used in the report preparation and by the MCCR NDB roll-up or the QM roll-up (which is tentatively scheduled for release in June, 1994).

Reviews have a status of ENTERED when automatically added. A status of PENDING may be used for those you are still working on or when one person does the data entry and another needs to review it.

Add Comment - This action allows you to edit the word processing (comments) field in Hospital or Insurance Reviews without having to edit other fields.

Review Worksheet Print - This action prints a worksheet for use on the wards for writing notes prior to calling the insurance company and entering the review. Basic information about the patient and the visit is included. Please note that the format is slightly different for 80 and 132 column outputs.

Following is a list of the screens, the actions they provide, and a brief description of each action. Actions shown in *italics* access other screens.

Claims Tracking Menu (Combined Functions)
Insurance Review Edit

INTRODUCTION **Insurance Reviews/Contacts**
cont.

Add Ins. Review - This action will add a new review for the visit. Following are the default review types.

- Pre-certification Review (if it is a scheduled admission and no previous review)
- Urgent Admission review (if it is not a scheduled admission and no previous review)
- Continued Stay Review (for follow-up reviews)

Delete Ins. Review - This action allows an insurance review to be deleted. If a review is automatically created, but the visit does not require reviews and follow-up with the insurance company, it can be deleted. Use care in exercising this action. It may be just as important to document that no review is required as it is to document the required reviews.

View/Edit Ins. Review - This action allows access to the Expanded Insurance Reviews Screen.

Appeals Edit - This action allows you to jump to the Appeals and Denials Screen to add/edit appeals. Only reviews where the action is either a denial or a penalty can be appealed. The denials and penalties can be edited on either the appeals screen or the insurance reviews screen. Appeals can only be edited on the appeals screen.

Change Patient - This action allows you to change to another patient without going back to the beginning of the option.

Expanded Insurance Reviews

Appeal Address - This action allows you to edit the appeals address information for the insurance company.

Contact Info - This action allows you to enter/edit the review date, person contacted, method of contact, phone and reference numbers.

Claims Tracking Menu (Combined Functions)
Insurance Review Edit

INTRODUCTION
cont.

Ins. Co. Update - This action allows you to view/edit the billing, precertification, verification, claims, appeals, and inquiry phone numbers for the insurance company.

Action Info - This action allows you to view/edit information pertaining to action taken on a review such as type of contact, care authorization from and to dates, authorization number, and review date and status.

View Pat. Ins. - This action takes you to the Patient Insurance Screens. Please refer to the Patient Insurance Menu documentation.

Appeal and Denial Tracking Screen

View/Edit Entry - This action allows you to jump to the Expanded Appeal/Denial Screen where you can view much of the data for one visit and perform related actions.

Add Appeal - This action allows adding an appeal to a denial or penalty. The first appeal will be an initial appeal. All other appeals will be subsequent appeals. You may enter an administrative or clinical appeal. There is no limit to the number of appeals that may be entered.

Delete Appeal/Denial - This action allows deletion of appeals and denials. This was designed to be used in cases of erroneous entry.

Patient Ins. Edit - This action allows editing of fields in the INSURANCE COMPANY file (#36) that pertain to appeals address and phone numbers.

Ins. Co. Edit - This action allows you to edit patient policy information.

Claims Tracking Menu (Combined Functions)
Insurance Review Edit

INTRODUCTION

cont.

Expanded Appeals/Denials Screen

With the exception of the Edit Pt. Ins. action, all other actions available on this screen are also available on the Expanded Insurance Reviews Screen documented on the previous page.

Edit Pt. Ins. - This action brings you to the Patient Insurance Screen. Please refer to the Patient Insurance Menu section of this manual for documentation.

Due to the nature of this option, no process chart is provided.

Claims Tracking Menu (Combined Functions)

Appeal/Denial Edit

INTRODUCTION This option allows you to enter, edit, and track the appeals for either a patient or an insurance company. You can speed processing by using the following syntax: 2.<entry name> (i.e., 2.Smith,John) to enter a patient name or 36.<entry name> (i.e., 36.GHI) to select an insurance company. If you simply enter a name, the system searches both files for the name you have entered.

This option uses a series of screens to display denials and penalties with all associated appeals. It is very similar to the Insurance Review option; however, if an appeal is approved or partially approved, the amount won on appeal is tracked.

The following chart shows the Claims Tracking Screens accessed through this option and the actions available on each screen. Actions shown in *italics* bring you to other screens (indicated by the arrows). Actions may not be shown in the order in which they actually appear on the screens.

*These actions bring you to the Patient Insurance Screens. Please refer to the Patient Insurance Menu section of this manual for documentation of these screens.

Claims Tracking Menu (Combined Functions) Appeal/Denial Edit

INTRODUCTION cont.

About the Screens...

In the top left corner of each screen is the screen title. A plus sign (+) at the bottom left of the screen indicates there are additional screens. Left or right arrows (<<< >>>) may be displayed to indicate there is additional information to the left or right on the screen. Available actions are displayed below the screen. Two question marks entered at any "Select Action" prompt displays all available actions for that screen. For more information on the use of the screens, please refer to the appendix at the end of this manual.

You may quit from any screen, which will bring you back one level or screen, or you may exit (this exits the option entirely and returns you to the menu).

Following is a list of the screens accessed through this option, the actions they provide, and a brief description of each action. Actions shown in *italics* access other screens.

Appeal and Denial Tracking Screen

View/Edit Entry - This action allows you to jump to the Expanded Appeal/Denial Screen where you can view much of the data for one visit and perform related actions.

Quick Edit - This action allows you to edit nearly all of the fields in the appeal or denial, add comments, maintain its status, and assign follow-up dates.

Add Appeal - This action allows adding an appeal to a denial or penalty. The first appeal will be an initial appeal. All other appeals will be subsequent appeals. You may enter an administrative or clinical appeal. There is no limit to the number of appeals that may be entered.

Delete Appeal/Denial - This action allows deletion of appeals and denials. This was designed to be used in cases of erroneous entry.

Claims Tracking Menu (Combined Functions)
Appeal/Denial Edit

INTRODUCTION
cont. SC Conditions - This action allows a quick look at the patient's eligibility, SC status, service-connected conditions, and percent of service connection for service-connected veterans.

Ins. Co. Edit - This action allows editing of fields in the INSURANCE COMPANY file (#36) that pertain to appeals address and phone numbers.

Patient Ins. Edit - This action allows you to edit patient policy information.

Expanded Appeals/Denials Screen

Appeal Address - This action allows you to edit the name and address for a selected appeal.

Contact Info - This action allows you to enter/edit the review date, person contacted, method of contact, phone and reference numbers.

Ins. Co. Update - This action allows you to view/edit the billing, precertification, verification, claims, appeals, and inquiry phone numbers for the insurance company.

Action Info - This action allows you to view/edit information pertaining to action taken on a review such as type of contact, care authorization from and to dates, authorization number, and review date and status.

Add Comment - This action allows you to edit the word processing (comments) field in Hospital or Insurance Reviews without having to edit other fields.

Edit Pt. Ins. - This action brings you to the Patient Insurance Screen. Please refer to the Patient Insurance Menu section of this manual for documentation.

Due to the nature of this option, no process chart is provided.

Claims Tracking Menu (Combined Functions)
Supervisors Menu (Claims Tracking)
Manually Add Opt. Encounters to Claims Tracking

INTRODUCTION Outpatient encounters that have been checked out through the Scheduling module are normally added during the IB nightly background job. Only primary outpatient encounters that have been checked out will be added in the first twenty days after the date of the encounter. This option allows you to search for outpatient encounters that were not checked out within twenty days and automatically add them to Claims Tracking. If you choose to run the automated bill preparation portion of IB V. 2.0, you should periodically run this report to insure that all outpatient care is billed. This option is automatically queued and a mail message is sent upon completion.

You may queue this option into the future; however, only outpatient encounters checked out at least one day prior to the actual running will be added automatically. A message indicating any change will be added to the completion mail message.

Due to the brevity of this option, no process chart is provided.

Claims Tracking Menu (Combined Functions)
Supervisors Menu (Claims Tracking)
Manually Add Opt. Encounters to Claims Tracking

EXAMPLE

The following example shows what might appear on your screen while using this option followed by a sample of the type of mail message generated. User responses are shown in boldface type.

Select the Date Range of Opt. Encounters to Add to Claims Tracking.

Start with DATE: **T-10** (JAN 22, 1994)

Go to DATE: **T** (FEB 01, 1994)

I'll automatically change the end date to 1 day prior to the date queued to run.

I'll automatically queue this off and send you a mail message when complete.

Requested Start Time: NOW// **<RET>** (FEB 01, 1994@16:23:08)

Claims Tracking Parameter Edit

INTRODUCTION This option allows you to edit MCCR site parameters that affect the Claims Tracking module.

Following is a list of each parameter with a brief description.

INSURANCE EXTENDED HELP

Should the extended help display always be on in the Insurance Management options.

ON - if you always want it to display automatically

OFF - if you do not want to see it

It is recommended that the extended help be turned on initially after V. 2 is installed. As users become more familiar with the new functionality, the parameter can be turned off.

CLAIMS TRACKING START DATE

If you choose to run the claims tracking module and populate the files with past episodes of care. (If the year is omitted, the computer uses the CURRENT YEAR.) This is the earliest visit date that the Claims Tracking software will add visits. (Earlier visit dates may be added manually.)

INPATIENT CLAIMS TRACKING

This field determines what inpatients will automatically be added to the claims tracking module. It is recommended that it is set to INSURED AND UR ONLY.

OFF - no new patients will be added

INSURED AND UR ONLY - only the insured patients and random sample patients will be added

ALL PATIENTS -a record of all admissions will be created

If a patient is not insured, each record will be so annotated automatically on creation and no follow-up will be required. The advantage of tracking all patients is that you can determine the percentage of billable cases and make necessary adjustments if the patients are later found to have insurance. The disadvantage is that additional capacity is used.

Claims Tracking Menu (Combined Functions)
Supervisors Menu (Claims Tracking)
Claims Tracking Parameter Edit

INTRODUCTION

cont.

OUTPATIENT CLAIMS TRACKING

This field determines whether outpatient visit dates will automatically be entered into the Claims Tracking module.

OFF - no entries will be entered

INSURED ONLY - only outpatient encounters for insured patients will be added

ALL PATIENTS - an entry for all outpatient encounters will be added

PRESCRIPTION CLAIMS TRACKING

This field determines whether prescriptions will automatically be entered into the Claims Tracking module.

If a prescription or refill does not appear to be billable, that is it may be for SC care, or there is a visit date associated with that prescription or refill, this will be so noted in the reason not billable.

It is recommended that this field is set to INSURED ONLY.

OFF - no prescriptions or refills will be entered

INSURED ONLY - only prescriptions and refills will be added if the patient is insured

ALL PATIENTS - an entry for all prescriptions will be entered

PROSTHETICS CLAIMS TRACKING

This field will be used to determine if prosthetics should be tracked in the claims tracking module.

OFF - no prosthetic items should be tracked

INSURED ONLY - only prosthetic items for patients with insurance will be tracked

ALL PATIENTS - prosthetic items for all patients will be tracked

Claims Tracking Menu (Combined Functions)
Supervisors Menu (Claims Tracking)
Claims Tracking Parameter Edit

INTRODUCTION

cont.

REPORTS ADD TO CLAIMS TRACKING

This field determines whether or not you wish to allow the Veterans with Insurance reports to add entries to Claims tracking. Enter YES for admissions and outpatient visits found as billable but not found in claims tracking to be added to claims tracking for billing information purposes only. No review will be set up. This is to allow flagging of these visits as unbillable so that they can be removed from these reports.

Answering 'YES' does not guarantee that the entry will be added. The related parameters about whether Claims Tracking is turned on and the Claims Tracking Start Date will over ride this parameter.

USE ADMISSION SHEETS

Indicate whether your facility is using Admission Sheets as part of the MCCR/UR functionality. If this parameter is answered YES, users will be asked for the device to print admissions sheets to. The default device will be from the BILL FORM TYPE file.

In the future, it may be possible to print an admission sheet upon admission if this field is set to YES.

ADMISSION SHEET HEADER LINE 1

Enter the text that your facility would like to have printed as the first line of the header on the admission sheet. This is usually the name of your medical center.

ADMISSION SHEET HEADER LINE 2

Enter the text that your facility would like to have printed as the second line of the header on the admission sheet. This is usually the street address of your medical center.

Claims Tracking Menu (Combined Functions)
Supervisors Menu (Claims Tracking)
Claims Tracking Parameter Edit

INTRODUCTION

cont.

ADMISSION SHEET HEADER LINE 3

Enter the text that your facility would like to have printed as the third line of the header on the admission sheet. This is usually the city, state, and zip code of your medical center.

MEDICINE SAMPLE SIZE

This is the number of required Utilization Reviews that you wish to have done each week for Medicine admissions. The minimum recommended by the QA office is one per week.

MEDICINE WEEKLY ADMISSIONS

This is the minimum number of admissions that your facility usually averages for Medicine. This is used along with the Medicine Sample Size to compute a random number. Changing this number to a lower value will cause the random sample case to be selected earlier in the week. A higher number provides a more even distribution of cases during the week. If the number exceeds the admissions for the week, the possibility exists that a random sample case may not be generated for this service.

SURGERY SAMPLE SIZE

This is the number of required Utilization Reviews that you wish to have done each week for Surgery admissions. The minimum recommended by the QA office is one per week.

SURGERY WEEKLY ADMISSIONS

This is the minimum number of admissions that your medical center usually averages for Surgery. This is used along with the Surgery Sample Size to compute a random number. Changing this number to a lower value will cause the random sample case to be selected earlier in the week. A higher number provides a more even distribution of cases during the week. If the number exceeds the admissions for the week, the possibility exists that a random sample case may not be generated for this service.

UR Activity Report

INTRODUCTION The UR Activity Report includes **total** activity during the date range. It provides a detailed listing of the Insurance Reviews, Hospital Reviews, or both for the selected dates; a summary report by admission; and a summary report by specialty. All completed Insurance Reviews are included. For Hospital Reviews, it lists each case reviewed indicating whether it met admission criteria, and the number of days that met/did not meet the criteria for acute care. The detailed listing can be sorted by reviewer, specialty, or patient. If sorted by reviewer, it sorts within reviewer by type of review.

These reports could be shared with hospital management and clinical staff to communicate trends in care.

This report is formatted to print at 132 columns.

Due to the brevity of this option, no process chart is provided.

Print CT Summary for Billing

INTRODUCTION The Bill Preparation Report is designed to provide as much detailed information about a visit as possible for use by billers when entering claims, or answering questions about claims. It may also be of interest to MCCR and UR employees wishing to verify information entered into Claims Tracking.

The following types of summary information may be included.

- visit
- insurance
- billing
- eligibility
- diagnosis
- procedure
- provider
- insurance review
- hospital review

Due to the brevity of this option, no process chart is provided.

Days Denied Report

INTRODUCTION This report can print a summary or detailed listing of denials. It can be sorted by patient, attending physician, or bed service (i.e., surgery, psychiatry, medicine). The summary report shows the number of denials, the total days denied, the dollar amount of the denials, and the days won on appeal by service.

This report is formatted to print at 132 columns.

Due to the brevity of this option, no process chart is provided.

Scheduled Admissions w/Insurance

INTRODUCTION This option prints a list of scheduled admissions in Claims Tracking for insured patients. Included are patients with past scheduled admissions and scheduled admissions up to three days into the future. This differs from the Scheduled Admission List from MAS, as it does not contain all scheduled admissions from MAS. Scheduled admissions are normally moved to Claims Tracking four days prior to the scheduled admission date so that reviews can be completed prior to admission. Included are the number and type of reviews performed and the insurance company actions.

This report is formatted to print at 132 columns.

Due to the brevity of this option, no process chart is provided.

Reports Menu (Claims Tracking)
Single Patient Admission Sheet

INTRODUCTION This option allows you to print an admission sheet for a single visit (either the current admission or a selected admission)
The admission sheet serves as a temporary cover sheet in the inpatient chart where reviewers and coders can make notes about the visit in summary form. If the facility chooses to have physicians sign the admission sheet, it can then be used as documentation to prepare inpatient bills prior to the signing of the discharge summary.

Due to the brevity of this option, no process chart is provided.

Claims Tracking Menu (Combined Functions)

Hospital Reviews

INTRODUCTION This option is designed to allow the entry of the utilization management information required by the Quality Management office. The Claims Tracking module will automatically identify a random sample of admissions (see the Claim Tracking Parameter Edit option) that require review. Hospital reviews are the application of Interqual criteria to determine if the admission or continued stay meets specific criteria. This module will allow entry of the category of criteria that was met for Severity of Illness and Intensity of Service or the reasons that criteria was not met. An entry for every day being reviewed is required. This can easily be accomplished by using the Add Next Review action which is designed to reduce the data entry time by duplicating the entries for days where the information is identical.

A national rollup of this data is scheduled to be released in early summer of 1994. Only reviews with a status of complete will be extracted.

The following chart shows the Claims Tracking Screens accessed through this option and the actions available on each screen. Actions shown in *italics* bring you to other screens (indicated by the arrows). Actions may not be shown in the order in which they actually appear on the screens.

Claims Tracking Menu (Combined Functions) Hospital Reviews

INTRODUCTION cont.

About the Screens...

In the top left corner of each screen is the screen title. A plus sign (+) at the bottom left of the screen indicates there are additional screens. Left or right arrows (<<< >>>) may be displayed to indicate there is additional information to the left or right on the screen. Available actions are displayed below the screen. Two question marks entered at any "Select Action" prompt displays all available actions for that screen. For more information on the use of the screens, please refer to the appendix at the end of this manual.

You may quit from any screen, which will bring you back one level or screen, or you may exit (this exits the option entirely and returns you to the menu).

Common Actions

The following are actions common to both screens accessed through this option. They are listed here to avoid duplication of documentation.

Change Status - This action allows you to quickly change the status of a review. Only completed reviews are used in the report preparation and by the MCCR NDB roll-up or the QM roll-up (which is tentatively scheduled for release in June, 1994).

Reviews have a status of ENTERED when automatically added. A status of PENDING may be used for those you are still working on or when one person does the data entry and another needs to review it.

Diagnosis Update - This action allows input of ICD-9 diagnoses for the patient. Whether diagnoses are input on this screen or another screen, they are available across the Claims Tracking module. You may enter an admitting diagnosis, primary (DXLS) diagnosis, secondary diagnosis and the onset date of the diagnosis for this admission. For outpatient visits this information is stored with the outpatient encounter information.

Claims Tracking Menu (Combined Functions) Hospital Reviews

INTRODUCTION cont.

Procedure Update - This action allows the input of ICD-9 procedures for the patient. You may input the procedure and the date. This is a separate procedure entry from the PTF module and is optional for use.

Provider Update - This action allows you to input the admitting physician, attending physician, and care provider separate from the MAS information. The purpose is to provide a location to document the attending physician and to provide an alternate place to document individual physicians if the administrative record indicates teams, or vice versa.

Following is a list of the screens, the actions they provide, and a brief description of each action. Actions shown in *italics* access other screens.

Hospital Reviews Screen

Add Next Hosp. Review - This action will add the next review and automatically set it to either an admission review or continued stay review. The day for review and review date are automatically computed but can be edited. The category of severity of illness and intensity of service that was met can be entered; or if not met, the reason it wasn't met.

Delete Review - This action allows a hospital review to be deleted. If a review is automatically created, but the visit does not require reviews and follow-up with the insurance company, it can be deleted. Use care in exercising this action. It can be as important to document that no review is required as it is to document the required reviews.

Quick Edit - This action allows you to quickly edit all information about the review without leaving the Pending Review option.

View/Edit Review - This action allows access to the Expanded Hospital Reviews Screen.

Claims Tracking Menu (Combined Functions)
Hospital Reviews

INTRODUCTION
cont. Change Patient - This action allows you to change the selected patient without having to leave and reenter the option.

Expanded Hospital Reviews Screen

Review Information - This action allows you to enter/edit the type of review (admission or continued stay), review date, and the specialty and methodology for the review. There should be only one admission review (pre-certification or urgent/emergent admission review) for an admission. Normally, reviews are done for UR purposes on days 3, 6, 9, 14, 21, 28, and every 7 days thereafter. (Usually, the INTERQUAL method is used as the methodology for UR required review. Insurance carriers may require other review methodologies.)

Add Comment - This action allows you to edit the word processing (comments) field in Hospital or Insurance Reviews without having to edit other fields.

Criteria Update - This action allows you to enter or edit data regarding criteria met/not met for an acute admission within 24 hours, such as the review date and methodology; severity of illness and intensity of service; and whether additional reviews are required

Due to the nature of this option, no process chart is provided.

Third Party Joint Inquiry

INTRODUCTION This option provides information needed to answer questions from insurance carriers regarding specific bills or episodes of care. This information is presented in List Manager Screens.

Because the same actions are available on most screens, and most screens can be accessed from any other screen; these “Common Actions” are listed first and are not repeated under each screen description. Only actions specific to a screen are included with that screen description.

You may QUIT from any screen which will bring you back one level or screen. EXIT is also available on most screens. EXIT returns you to the menu. For more information on the use of the List Manager utility, please refer to the appendix at the end of this manual.

Actions shown in italics access other screens.

Common Actions

BC Bill Charges - Accesses the Bill Charges screen.

DX Bill Diagnoses - Accesses the Bill Diagnoses screen.

PR Bill Procedures - Accesses the Bill Procedures screen.

CI Go to Claim Screen - Returns you to the Claim Information screen. Available on all screens that may be opened from the Claim Information screen.

AR Account Profile - Accesses the AR Account Profile screen.

CM Comment History - Accesses the AR Comment History screen.

IR Insurance Reviews - Accesses the Insurance Reviews/ Contacts screen.

Third Party Joint Inquiry

INTRODUCTION HS Health Summary - Displays a Health Summary report.
cont. The information displayed on the Health Summary is site
 specified through the MCCR Site Parameter Display/Edit
 option.

AL Go to Active List - Returns you to the Third Party Active
Bills screen if that screen was accessed upon entering this
option; otherwise, this action returns you to the menu.

VI Insurance Company - Accesses the Insurance Company
screen.

VP Policy - Accesses the Patient Policy Information screen.

AB Annual Benefits - Accesses the Annual Benefits screen.

EL Patient Eligibility - Accesses the Patient Eligibility screen.

EX Exit Action - Exits the option.

Third Party Active Bills Screen

This is the first screen displayed if you enter a patient name at
the first prompt of this option. It lists all active third party
bills for the specified patient in order of date created. All bills
created in the Integrated Billing Third Party Billing module
can be found on this screen or the Inactive Bills screen.

Actions

IL Inactive Bills - Accesses the Inactive Bills screen.

PI Patient Insurance - Accesses the Patient Insurance screen.

CP Change Patient - Allows you to choose another patient and
re-displays the Third Party Active Bills screen for that patient.

Third Party Joint Inquiry

INTRODUCTION

cont.

Inactive Bills Screen

This screen lists inactive bills for a specified patient. All bills created in the Integrated Billing Third Party Billing module are found on this screen or the Third Party Active Bills screen. Bills are displayed beginning with most recent "statement from" date.

Actions

CD Change Dates - Allows you to change the bills listed by changing the most recent "statement from" date to be displayed.

Patient Insurance Screen

This screen displays the list of insurance policies for a patient. It is based on the Patient Insurance Management screen of the Patient Insurance Info View/Edit option. It is only available from the Third Party Active Bills screen.

Claim Information Screen

This screen contains bill data and status information to provide an overall status of the bill. This is the primary claim screen for the inquiry, and many actions are provided to expand on the details of the claim.

If a policy has been updated but the bill has not, those changes are not reflected on this screen. Updated or current insurance information may be viewed using the three insurance screens.

Actions

CB Change Bill - Allows you to change the bill being displayed. If you entered a patient name at the first prompt of this option, only bills for that patient may be selected. If you entered a bill number at the first prompt, any bill may be selected.

Third Party Joint Inquiry

INTRODUCTION

cont.

Bill Charges Screen

This screen displays a bill's charge information as it would print on the bill. For UB-92 bills, this closely corresponds to Form Locators 42-49; therefore, any prosthetic items, Rx refills, or additional diagnoses and procedures are included. For HCFA 1500 bills, this closely corresponds to Block 24.

Bill Diagnosis Screen

This screen displays all diagnoses assigned to the bill, in the order they are printed on the bill.

Bill Procedures Screen

This screen lists all procedures assigned to a bill, in the order they are printed on the bill.

AR Account Profile Screen

This screen provides the financial history of a claim's account. This includes the current status of the bill in both IB and AR, as well as the payment or transaction history of the bill from Accounts Receivable. This screen is loosely based on the Profile of Accounts Receivable option.

Actions

VT Transaction Profile - Accesses the AR Transaction Profile screen for a selected transaction.

AR Transaction Profile Screen

This screen displays detailed account transaction information for individual claim transactions. It is loosely based on the Accounts Receivable Transaction Profile option.

Third Party Joint Inquiry

INTRODUCTION
cont.

AR Comment History Screen

This screen displays AR comments for the claim's account.

Actions

AD Add AR Comment - Allows you to add an AR Transaction Comment to the bill being displayed. Comment transactions may not be added to a bill that has not been authorized in IB.

Insurance Reviews/Contacts Screen

This screen displays all insurance reviews and contacts for the episodes of care on a bill. It is based on the Insurance Reviews/Contacts screen of the Claims Tracking Insurance Review Edit option. The primary difference between the two screens is that this screen consolidates all contacts for each episode being billed on a claim, while the Claims Tracking screen displays the contacts for a single episode of care.

Actions

VR *Reviews/Appeals* - Displays expanded information on a selected insurance contact. The screen accessed by this action will depend on the type of contact selected. If the contact is an appeal or denial, the Expanded Appeals/Denials screen is opened; otherwise, the Expanded Insurance Reviews screen is opened.

Expanded Appeals/Denials Screen

This screen displays expanded information on insurance appeals and denials listed on the Insurance Review/Contacts screen. This screen is based on the Expanded Appeals/Denials screen of the Claims Tracking Appeal/Denial Edit option.

Expanded Insurance Reviews Screen

This screen displays expanded information on insurance reviews listed on the Insurance Reviews/Contacts screen. This screen is based on the Expanded Insurance Reviews screen of the Claims Tracking Insurance Review Edit option.

Third Party Joint Inquiry

INTRODUCTION

cont.

Insurance Company Screen

This screen displays extended information on an Insurance Company. It is based on the Insurance Company Editor screen of the Insurance Company Entry/Edit option. This screen may be entered from the Patient Insurance screen or from any of the bill specific screens. Once a bill is selected, this screen displays only information related to the insurance carriers assigned to that bill.

Patient Policy Information Screen

This screen displays extended information on insurance policies. It is based on the Patient Policy Information screen of the Patient Insurance Info View/Edit option. This screen may be entered from either the Patient Insurance screen or from any of the bill specific screens. Once a bill is selected, this screen will only display information related to the insurance policies assigned to the bill.

Annual Benefits Screen

This screen displays extended information on the annual benefits of insurance policies. It is based on the Annual Benefits Editor screen of the Patient Insurance Info View/Edit option. This screen may be entered from the Patient Insurance screen or from any of the bill specific screens. Once a bill has been chosen, this screen displays information related to the insurance policies assigned to that bill.

Third Party Joint Inquiry

INTRODUCTION

cont.

Patient Eligibility Screen

This screen displays the current information on the patient's eligibility for care and service connection status. It is loosely based on the Eligibility Inquiry for Patient Billing option. This screen is available from the Third Party Active Bills screen and the bill specific screens.

If this screen is accessed from one of the bill specific screens, such as the Claim Information screen, the standard list of bill screen actions will be available from this screen.

If this screen is accessed from the Patient Insurance screen, no other screens are available as actions from this screen; and you must return to a previous screen to access other screens.

Due to the nature of this option, no process chart is provided.

Third Party Joint Inquiry

INTRODUCTION This option provides information needed to answer questions from insurance carriers regarding specific bills or episodes of care. This information is presented in List Manager Screens.

Because the same actions are available on most screens, and most screens can be accessed from any other screen; these “Common Actions” are listed first and are not repeated under each screen description. Only actions specific to a screen are included with that screen description.

You may QUIT from any screen which will bring you back one level or screen. EXIT is also available on most screens. EXIT returns you to the menu. For more information on the use of the List Manager utility, please refer to the appendix at the end of this manual.

Actions shown in italics access other screens.

Common Actions

BC Bill Charges - Accesses the Bill Charges screen.

DX Bill Diagnoses - Accesses the Bill Diagnoses screen.

PR Bill Procedures - Accesses the Bill Procedures screen.

CI Go to Claim Screen - Returns you to the Claim Information screen. Available on all screens that may be opened from the Claim Information screen.

AR Account Profile - Accesses the AR Account Profile screen.

CM Comment History - Accesses the AR Comment History screen.

IR Insurance Reviews - Accesses the Insurance Reviews/ Contacts screen.

Third Party Joint Inquiry

INTRODUCTION HS Health Summary - Displays a Health Summary report.
cont. The information displayed on the Health Summary is site
 specified through the MCCR Site Parameter Display/Edit
 option.

AL Go to Active List - Returns you to the Third Party Active Bills screen if that screen was accessed upon entering this option; otherwise, this action returns you to the menu.

VI Insurance Company - Accesses the Insurance Company screen.

VP Policy - Accesses the Patient Policy Information screen.

AB Annual Benefits - Accesses the Annual Benefits screen.

EL Patient Eligibility - Accesses the Patient Eligibility screen.

EX Exit Action - Exits the option.

Third Party Active Bills Screen

This is the first screen displayed if you enter a patient name at the first prompt of this option. It lists all active third party bills for the specified patient in order of date created. All bills created in the Integrated Billing Third Party Billing module can be found on this screen or the Inactive Bills screen.

Actions

IL Inactive Bills - Accesses the Inactive Bills screen.

PI Patient Insurance - Accesses the Patient Insurance screen.

CP Change Patient - Allows you to choose another patient and re-displays the Third Party Active Bills screen for that patient.

Third Party Joint Inquiry

INTRODUCTION

cont.

Inactive Bills Screen

This screen lists inactive bills for a specified patient. All bills created in the Integrated Billing Third Party Billing module are found on this screen or the Third Party Active Bills screen. Bills are displayed beginning with most recent “statement from” date.

Actions

CD Change Dates - Allows you to change the bills listed by changing the most recent “statement from” date to be displayed.

Patient Insurance Screen

This screen displays the list of insurance policies for a patient. It is based on the Patient Insurance Management screen of the Patient Insurance Info View/Edit option. It is only available from the Third Party Active Bills screen.

Claim Information Screen

This screen contains bill data and status information to provide an overall status of the bill. This is the primary claim screen for the inquiry, and many actions are provided to expand on the details of the claim.

If a policy has been updated but the bill has not, those changes are not reflected on this screen. Updated or current insurance information may be viewed using the three insurance screens.

Actions

CB Change Bill - Allows you to change the bill being displayed. If you entered a patient name at the first prompt of this option, only bills for that patient may be selected. If you entered a bill number at the first prompt, any bill may be selected.

Third Party Joint Inquiry

INTRODUCTION

cont.

Bill Charges Screen

This screen displays a bill's charge information as it would print on the bill. For UB-92 bills, this closely corresponds to Form Locators 42-49; therefore, any prosthetic items, Rx refills, or additional diagnoses and procedures are included. For HCFA 1500 bills, this closely corresponds to Block 24.

Bill Diagnosis Screen

This screen displays all diagnoses assigned to the bill, in the order they are printed on the bill.

Bill Procedures Screen

This screen lists all procedures assigned to a bill, in the order they are printed on the bill.

AR Account Profile Screen

This screen provides the financial history of a claim's account. This includes the current status of the bill in both IB and AR, as well as the payment or transaction history of the bill from Accounts Receivable. This screen is loosely based on the Profile of Accounts Receivable option.

Actions

VT Transaction Profile - Accesses the AR Transaction Profile screen for a selected transaction.

AR Transaction Profile Screen

This screen displays detailed account transaction information for individual claim transactions. It is loosely based on the Accounts Receivable Transaction Profile option.

Third Party Joint Inquiry

INTRODUCTION cont.

AR Comment History Screen

This screen displays AR comments for the claim's account.

Actions

AD Add AR Comment - Allows you to add an AR Transaction Comment to the bill being displayed. Comment transactions may not be added to a bill that has not been authorized in IB.

Insurance Reviews/Contacts Screen

This screen displays all insurance reviews and contacts for the episodes of care on a bill. It is based on the Insurance Reviews/Contacts screen of the Claims Tracking Insurance Review Edit option. The primary difference between the two screens is that this screen consolidates all contacts for each episode being billed on a claim, while the Claims Tracking screen displays the contacts for a single episode of care.

Actions

VR *Reviews/Appeals* - Displays expanded information on a selected insurance contact. The screen accessed by this action will depend on the type of contact selected. If the contact is an appeal or denial, the Expanded Appeals/Denials screen is opened; otherwise, the Expanded Insurance Reviews screen is opened.

Expanded Appeals/Denials Screen

This screen displays expanded information on insurance appeals and denials listed on the Insurance Review/Contacts screen. This screen is based on the Expanded Appeals/Denials screen of the Claims Tracking Appeal/Denial Edit option.

Expanded Insurance Reviews Screen

This screen displays expanded information on insurance reviews listed on the Insurance Reviews/Contacts screen. This screen is based on the Expanded Insurance Reviews screen of the Claims Tracking Insurance Review Edit option.

Third Party Joint Inquiry

INTRODUCTION

cont.

Insurance Company Screen

This screen displays extended information on an Insurance Company. It is based on the Insurance Company Editor screen of the Insurance Company Entry/Edit option. This screen may be entered from the Patient Insurance screen or from any of the bill specific screens. Once a bill is selected, this screen displays only information related to the insurance carriers assigned to that bill.

Patient Policy Information Screen

This screen displays extended information on insurance policies. It is based on the Patient Policy Information screen of the Patient Insurance Info View/Edit option. This screen may be entered from either the Patient Insurance screen or from any of the bill specific screens. Once a bill is selected, this screen will only display information related to the insurance policies assigned to the bill.

Annual Benefits Screen

This screen displays extended information on the annual benefits of insurance policies. It is based on the Annual Benefits Editor screen of the Patient Insurance Info View/Edit option. This screen may be entered from the Patient Insurance screen or from any of the bill specific screens. Once a bill has been chosen, this screen displays information related to the insurance policies assigned to that bill.

Third Party Joint Inquiry

INTRODUCTION

cont.

Patient Eligibility Screen

This screen displays the current information on the patient's eligibility for care and service connection status. It is loosely based on the Eligibility Inquiry for Patient Billing option. This screen is available from the Third Party Active Bills screen and the bill specific screens.

If this screen is accessed from one of the bill specific screens, such as the Claim Information screen, the standard list of bill screen actions will be available from this screen.

If this screen is accessed from the Patient Insurance screen, no other screens are available as actions from this screen; and you must return to a previous screen to access other screens.

Due to the nature of this option, no process chart is provided.

Third Party Joint Inquiry

INTRODUCTION This option provides information needed to answer questions from insurance carriers regarding specific bills or episodes of care. This information is presented in List Manager Screens.

Because the same actions are available on most screens, and most screens can be accessed from any other screen; these “Common Actions” are listed first and are not repeated under each screen description. Only actions specific to a screen are included with that screen description.

You may QUIT from any screen which will bring you back one level or screen. EXIT is also available on most screens. EXIT returns you to the menu. For more information on the use of the List Manager utility, please refer to the appendix at the end of this manual.

Actions shown in italics access other screens.

Common Actions

BC Bill Charges - Accesses the Bill Charges screen.

DX Bill Diagnoses - Accesses the Bill Diagnoses screen.

PR Bill Procedures - Accesses the Bill Procedures screen.

CI Go to Claim Screen - Returns you to the Claim Information screen. Available on all screens that may be opened from the Claim Information screen.

AR Account Profile - Accesses the AR Account Profile screen.

CM Comment History - Accesses the AR Comment History screen.

IR Insurance Reviews - Accesses the Insurance Reviews/ Contacts screen.

Third Party Joint Inquiry

INTRODUCTION cont. HS Health Summary - Displays a Health Summary report. The information displayed on the Health Summary is site specified through the MCCR Site Parameter Display/Edit option.

AL Go to Active List - Returns you to the Third Party Active Bills screen if that screen was accessed upon entering this option; otherwise, this action returns you to the menu.

VI Insurance Company - Accesses the Insurance Company screen.

VP Policy - Accesses the Patient Policy Information screen.

AB Annual Benefits - Accesses the Annual Benefits screen.

EL Patient Eligibility - Accesses the Patient Eligibility screen.

EX Exit Action - Exits the option.

Third Party Active Bills Screen

This is the first screen displayed if you enter a patient name at the first prompt of this option. It lists all active third party bills for the specified patient in order of date created. All bills created in the Integrated Billing Third Party Billing module can be found on this screen or the Inactive Bills screen.

Actions

IL Inactive Bills - Accesses the Inactive Bills screen.

PI Patient Insurance - Accesses the Patient Insurance screen.

CP Change Patient - Allows you to choose another patient and re-displays the Third Party Active Bills screen for that patient.

Third Party Joint Inquiry

INTRODUCTION

cont.

Inactive Bills Screen

This screen lists inactive bills for a specified patient. All bills created in the Integrated Billing Third Party Billing module are found on this screen or the Third Party Active Bills screen. Bills are displayed beginning with most recent “statement from” date.

Actions

CD Change Dates - Allows you to change the bills listed by changing the most recent “statement from” date to be displayed.

Patient Insurance Screen

This screen displays the list of insurance policies for a patient. It is based on the Patient Insurance Management screen of the Patient Insurance Info View/Edit option. It is only available from the Third Party Active Bills screen.

Claim Information Screen

This screen contains bill data and status information to provide an overall status of the bill. This is the primary claim screen for the inquiry, and many actions are provided to expand on the details of the claim.

If a policy has been updated but the bill has not, those changes are not reflected on this screen. Updated or current insurance information may be viewed using the three insurance screens.

Actions

CB Change Bill - Allows you to change the bill being displayed. If you entered a patient name at the first prompt of this option, only bills for that patient may be selected. If you entered a bill number at the first prompt, any bill may be selected.

Third Party Joint Inquiry

INTRODUCTION

cont.

Bill Charges Screen

This screen displays a bill's charge information as it would print on the bill. For UB-92 bills, this closely corresponds to Form Locators 42-49; therefore, any prosthetic items, Rx refills, or additional diagnoses and procedures are included. For HCFA 1500 bills, this closely corresponds to Block 24.

Bill Diagnosis Screen

This screen displays all diagnoses assigned to the bill, in the order they are printed on the bill.

Bill Procedures Screen

This screen lists all procedures assigned to a bill, in the order they are printed on the bill.

AR Account Profile Screen

This screen provides the financial history of a claim's account. This includes the current status of the bill in both IB and AR, as well as the payment or transaction history of the bill from Accounts Receivable. This screen is loosely based on the Profile of Accounts Receivable option.

Actions

VT Transaction Profile - Accesses the AR Transaction Profile screen for a selected transaction.

AR Transaction Profile Screen

This screen displays detailed account transaction information for individual claim transactions. It is loosely based on the Accounts Receivable Transaction Profile option.

Third Party Joint Inquiry

INTRODUCTION cont.

AR Comment History Screen

This screen displays AR comments for the claim's account.

Actions

AD Add AR Comment - Allows you to add an AR Transaction Comment to the bill being displayed. Comment transactions may not be added to a bill that has not been authorized in IB.

Insurance Reviews/Contacts Screen

This screen displays all insurance reviews and contacts for the episodes of care on a bill. It is based on the Insurance Reviews/Contacts screen of the Claims Tracking Insurance Review Edit option. The primary difference between the two screens is that this screen consolidates all contacts for each episode being billed on a claim, while the Claims Tracking screen displays the contacts for a single episode of care.

Actions

VR *Reviews/Appeals* - Displays expanded information on a selected insurance contact. The screen accessed by this action will depend on the type of contact selected. If the contact is an appeal or denial, the Expanded Appeals/Denials screen is opened; otherwise, the Expanded Insurance Reviews screen is opened.

Expanded Appeals/Denials Screen

This screen displays expanded information on insurance appeals and denials listed on the Insurance Review/Contacts screen. This screen is based on the Expanded Appeals/Denials screen of the Claims Tracking Appeal/Denial Edit option.

Expanded Insurance Reviews Screen

This screen displays expanded information on insurance reviews listed on the Insurance Reviews/Contacts screen. This screen is based on the Expanded Insurance Reviews screen of the Claims Tracking Insurance Review Edit option.

Insurance Company Screen

This screen displays extended information on an Insurance Company. It is based on the Insurance Company Editor screen of the Insurance Company Entry/Edit option. This screen may be entered from the Patient Insurance screen or from any of the bill specific screens. Once a bill is selected, this screen displays only information related to the insurance carriers assigned to that bill.

Patient Policy Information Screen

This screen displays extended information on insurance policies. It is based on the Patient Policy Information screen of the Patient Insurance Info View/Edit option. This screen may be entered from either the Patient Insurance screen or from any of the bill specific screens. Once a bill is selected, this screen will only display information related to the insurance policies assigned to the bill.

Annual Benefits Screen

This screen displays extended information on the annual benefits of insurance policies. It is based on the Annual Benefits Editor screen of the Patient Insurance Info View/Edit option. This screen may be entered from the Patient Insurance screen or from any of the bill specific screens. Once a bill has been chosen, this screen displays information related to the insurance policies assigned to that bill.

Third Party Joint Inquiry

INTRODUCTION

cont.

Patient Eligibility Screen

This screen displays the current information on the patient's eligibility for care and service connection status. It is loosely based on the Eligibility Inquiry for Patient Billing option. This screen is available from the Third Party Active Bills screen and the bill specific screens.

If this screen is accessed from one of the bill specific screens, such as the Claim Information screen, the standard list of bill screen actions will be available from this screen.

If this screen is accessed from the Patient Insurance screen, no other screens are available as actions from this screen; and you must return to a previous screen to access other screens.

Due to the nature of this option, no process chart is provided.

SECTION 3 - PATIENT INSURANCE MENU

Patient Insurance Info View/Edit
View Patient Insurance
Insurance Company Entry/Edit
View Insurance Company
List Inactive Ins. Co. Covering Patients
List Plans by Insurance Company
List New not Verified Policies

|

Option Overview

PATIENT INSURANCE INFO VIEW/EDIT - Used to look at a patient's insurance information and edit that data, if necessary.

VIEW PATIENT INSURANCE - Used to look at a patient's insurance information.

INSURANCE COMPANY ENTRY/EDIT - Used to enter new insurance companies into the INSURANCE COMPANY file and edit data on existing companies.

VIEW INSURANCE COMPANY - Used to look at data related to a selected insurance company.

LIST INACTIVE INS. CO. COVERING PATIENTS - Provides a listing of inactive insurance companies that are listed in the system as providing coverage.

LIST PLANS BY INSURANCE COMPANY - Produces a list of insurance plans offered by one or more insurance companies. May also be used to provide a list of subscribers for one or more insurance plans at one or more insurance companies.

LIST NEW NOT VERIFIED POLICIES - Produces a list, by patient, of new insurance entries that have not been verified.

Patient Insurance Info View/Edit

The Type of Policy field has been changed to display the Type of Plan rather than the Type of Plan's Major Category.

Introduction

The Patient Insurance Info View/Edit option is used to look at a patient's insurance information and edit that data, if necessary. The system groups information that is specific to the insurance company, specific to the patient, specific to the group plan, specific to the annual benefits available, and the annual benefits already used. Inactive policies will be listed as long as the patient has not been repointed from that inactive policy to an active policy.

About the Screens...

In the top left corner of each screen is the screen title. On some screens, the following line is a description of the information displayed. A plus sign (+) at the bottom of the screen indicates there are additional screens. Left or right arrows (<<< >>>) may be displayed to indicate there is additional information to the left or right of the screen. Available actions are displayed below the screen. <??> entered at any "Select Action" prompt displays all available actions for that screen.

You may QUIT from any screen which will bring you back one level or screen. EXIT is also available on most screens. When EXIT is entered, you are asked if you wish to "Exit option entirely?". A YES response returns you to the menu. A NO response has the same result as the QUIT action. For more information on the use of the List Manager utility, please refer to the appendix at the end of this manual.

Following is a listing of the screens found in this option and a brief description of the actions they allow. Actions shown in *italics* access other screens. Once an action has been selected, <??> may be entered at most of the prompts that appear for lists of acceptable responses or instruction on how to respond.

Patient Insurance Management Screen

Once a patient is selected, this screen is displayed listing all the patient's insurance policies. Information provided for each policy may include type of policy, group name, holder, effective date, and expiration date.

Introduction, cont.

Actions

AP Add Policy - Allows you to add an insurance policy for the selected patient.

VP *Policy Edit/View (accesses Patient Policy Information screen)* - Allows you to view and edit extensive insurance policy data.

DP Delete Policy - Allows you to delete an insurance policy for the selected patient. IB INSURANCE SUPERVISOR security key is required.

AB *Annual Benefits - (accesses Annual Benefits Editor screen)* - Used to enter annual benefits data for the selected policy.

EA Fast Edit All - A quick way to enter portions of the patient insurance information.

BU *Benefits Used (accesses the Benefits Used By Date Editor screen)* - Used to enter policy benefits already used.

VC Verify Coverage - Allows the user to enter into the system verification that the insurance coverage exists and the information is correct.

RI Personal Riders - Displays current riders and allows addition of new riders.

CP Change Patient - Allows you to change to another patient without returning to the beginning of the option.

WP Worksheet Print - Used to print the standard worksheet showing the data for the benefit year within the past 12 months. If no benefit year on file, will print the standard form without the data. Must be printed at 132 column margin width.

PC Print Insurance Cov. - Similar to worksheet. Used when bulk of information is already in the computer. Will show two most recent benefit years. If no benefit years on file, will offer WP action (see above).

Patient Insurance Info View/Edit

Introduction, cont.

Patient Policy Information Screen

This screen is displayed listing expanded policy information for the selected company. Categories include utilization review data, subscriber data, subscriber's employer information, effective dates, plan coverage limitations, last contact, and comments on the patient policy or insurance group plan. The sections on user information and insurance company information are not editable.

Actions

PI Change Plan Info - Allows entry/edit of group plan information.

UI UR Info - Allows entry/edit of utilization review information.

ED Effective Dates - Allows you to edit the effective date and expiration date of the insurance policy.

SU Subscriber Update - Allows you to edit the subscriber (person who holds the insurance coverage) information.

IP Inactive Plan - Allows you to inactivate an insurance plan, or move subscribers from multiple insurance plans into one master plan.

IC Insur. Contact Inf. - Allows you to add/edit the last insurance contact.

EM Employer Info - Allows you to edit the subscriber's employer information.

AC Add Comment - Allows the user to add a comment regarding the patient's policy or the insurance group plan.

EA Fast Edit All - A quick way to enter portions of the patient insurance information.

CP Change Policy Plan - Allows you to change the plan to which a veteran is subscribing.

VC Verify Coverage - Allows the user to enter into the system verification that the insurance coverage exists and the information is correct.

Patient Insurance Info View/Edit

Introduction, cont.

AB Annual Benefits (accesses Annual Benefits Editor screen) - Used to enter annual benefits data for the selected policy.

CV Add/Edit Coverage - Allows you to add or edit coverage limitations for a specific plan.

BU Benefits Used - (accesses the Benefits Used By Date Editor screen) - Used to enter policy benefits already used.

Annual Benefits Editor Screen

Once the benefit year is selected, this screen is displayed listing all the benefits for the selected insurance policy and benefit year. Benefit categories may include inpatient benefits, outpatient benefits, mental health, home health care, hospice, rehabilitation, and IV management.

Actions

PI Policy Information - Allows entry/edit of maximum out of pocket and ambulance coverage.

IP Inpatient - Allows entry/edit of inpatient benefits data.

OP Outpatient - Allows entry/edit of outpatient benefits data.

MH Mental Health - Allows entry/edit of mental health inpatient and outpatient benefits data.

HH Home Health - Allows entry/edit of home health care benefits data.

HS Hospice - Allows entry/edit of hospice benefits data.

RH Rehab - Allows entry/edit of rehabilitation benefits data.

IV IV Mgmt. - Allows entry/edit of intravenous management benefits data.

Patient Insurance Info View/Edit

Introduction, cont.

EA Edit All - Lists editable fields line by line for quick data entry.

CY Change Year - Allows you to change to another benefit year.

Benefits Used By Date Editor Screen

Once the benefit year is selected, this screen is displayed listing all the benefits used for the selected insurance policy and benefit year. Benefit categories may include inpatient and outpatient deductibles.

PI Policy Info - Allows entry/edit of policy information such as deductible met and pre-existing conditions.

OD Opt Deduct - Allows entry/edit of the outpatient deductible insurance information.

ID Inpt Deduct - Allows entry/edit of the inpatient deductible insurance information.

AC Add Comment - Allows the user to add a comment regarding claims filed.

EA Edit All - A quick way to enter portions of the patient insurance information.

CY Change Year - Allows you to change to another benefit year.

View Patient Insurance

INTRODUCTION The View Patient Insurance option is used to look at a patient's insurance information. The system groups information that is specific to the insurance company, specific to the patient, specific to the group plan, specific to the annual benefits available, and the annual benefits already used. Editing of the data is not allowed through this option.

About the Screens...

In the top left corner of each screen is the screen title. On some screens, the following line is a description of the information displayed. A plus sign (+) at the bottom of the screen indicates there are additional screens. Left or right arrows (<<< >>>) may be displayed to indicate there is additional information to the left or right of the screen. Available actions are displayed below the screen. <??> entered at any "Select Action" prompt displays all available actions for that screen.

You may QUIT from any screen which will bring you back one level or screen. EXIT is also available on most screens. When EXIT is entered, you are asked if you wish to "Exit option entirely?". A YES response returns you to the menu. A NO response has the same result as the QUIT action. For more information on the use of the List Manager utility, please refer to the appendix at the end of this manual.

Following is a listing of the screens found in this option and a brief description of the actions they allow. Actions shown in *italics* access other screens.

Patient Insurance Management Screen

Once a patient is selected, this screen is displayed listing all the patient's insurance policies. Information provided for each policy may include type of policy, group name or individual, holder, effective date, and expiration date.

VP View Policy Info (accesses Patient Policy Information screen) - Allows you to view extensive insurance policy data.

View Patient Insurance

INTRODUCTION **Actions** cont.

AB Annual Benefits - (accesses *Annual Benefits Editor* screen)
- Used to view annual benefits data for the selected policy.

BU Benefits Used - (accesses *Benefits Used By Date Editor* screen) - Used to view policy benefits already used.

CP Change Patient - Allows you to change to another patient without returning to the beginning of the option.

Patient Policy Information Screen

This screen is displayed listing expanded policy information for the selected company. Categories include utilization review data, subscriber data, subscriber's employer information, policy information, effective dates, plan coverage limitations, last contact, comments on the patient policy or insurance group plan, and personal riders. The only action allowed from this screen is EXIT.

Annual Benefits Editor Screen

Once the benefit year is selected, this screen is displayed listing all the benefits for the selected insurance policy and benefit year. Benefit categories may include inpatient benefits, outpatient benefits, mental health, home health care, hospice, rehabilitation, and IV management. The only actions allowed from this screen are CY to change the benefit year and EXIT.

Benefits Used By Date Editor Screen

Once the benefit year is selected, this screen is displayed listing all the benefits used for the selected insurance policy and benefit year. Benefit categories may include inpatient and outpatient deductibles. The only actions allowed from this screen are CY to change the benefit year and EXIT.

Due to the nature of this option, a process chart has not been provided.

Insurance Company Entry/Edit

Now displays NO for ALLOW MULTIPLE BEDSECTIONS only if the field has been answered NO. Previously, NO was assumed if there was no answer in the field.

The Billing Parameters action of this option has been modified so that the user may enter the BIN number for an insurance carrier. This number ID is also displayed in the Insurance Company Editor screen. The BIN number must be entered for the company which is the Tricare FI (Fiscal Intermediary: the company with which the Tricare patient holds their Tricare insurance coverage). The BIN number is passed to the RNA package and transmitted to the electronic switch company, where it is used to determine the address for forwarding to the FI. If the BIN number is not entered, pharmacy claims will not be passed to the RNA system for submission to the FI.

Only national, print-type forms may be selected at the FORM TYPE field. A locally defined form name cannot be selected. The FORM TYPE field is used to determine the basic bill format, not the specific form that will print for the insurance company.

Introduction

The Insurance Company Entry/Edit option is used to enter new insurance companies into the INSURANCE COMPANY file and edit data on existing companies. An insurance company must be in the INSURANCE COMPANY file before it can be entered into a patient's record.

When entering new insurance companies, you will be prompted for the company street address, city, and whether or not the company will reimburse for treatment.

Following is a listing of the actions found on the screen in this option and a brief description of each. Once an action has been selected, <??> may be entered at most of the prompts that appear for lists of acceptable responses or instruction on how to respond.

Insurance Company Editor Screen

Once the insurance company is selected, this screen is displayed listing the following groups of information for that company: billing parameters, main mailing address, inpatient claims office data, outpatient claims office data, prescription claims office data, appeals office data, inquiry office data, remarks, and synonyms.

Insurance Company Entry/Edit

Introduction, cont.

BP Billing Parameters - Allows you to add/edit the billing parameters for the selected insurance company.

MM Main Mailing Address - Allows you to add/edit the company's main mailing address. The address entered here will automatically be entered for the other office addresses.

IC Inpt Claims Office - Allows you to add/edit the company's inpatient claims office name, address, phone and fax numbers.

OC Opt Claims Office - Allows you to add/edit the company's outpatient claims office name, address, phone and fax numbers.

PC Prescr Claims Of - Allows you to add/edit the company's prescription claims office name, address, phone and fax numbers.

AO Appeals Office - Allows you to add/edit the company's appeals office name, address, phone and fax numbers.

IO Inquiry Office - Allows you to add/edit the company's inquiry office name, address, phone and fax numbers.

RE Remarks - Allows the user to enter comments concerning the selected insurance company.

SY Synonyms - Allows you to add/edit any synonyms for the selected company.

EA Edit All - Lists editable fields line by line for quick data entry.

AI (In)Activate Company - Allows you to activate/inactivate the selected insurance company. This may be used to inactivate duplicate companies in the system. When an insurance company is no longer valid, it is important to inactivate the company rather than delete it from the system. The IB INSURANCE SUPERVISOR security key is required. Once a company has been inactivated, it may not be selected when entering billing information.

You may also obtain a report of patients insured by a given company through this action.

Insurance Company Entry/Edit

Introduction, cont.

CC Change Insurance Co. - Allows you to change to another company without returning to the beginning of the option.

DC Delete Company - Allows you to delete an entry from the INSURANCE COMPANY (#36) file. If claims have been submitted to the company, another company must be selected in which to point all claims and receivables information.

PL Plans (accesses Insurance Plan List screen) - Allows you to display and change plan attributes associated with the insurance company.

Insurance Plan List Screen

This screen lists all plans (active and inactive, group and individual) for the selected insurance company.

Actions

VP View/Edit Plan (accesses View/Edit Plan screen) - Allows you to display /change plan detailed information.

IP Inactive Plan - Allows you to inactivate an insurance plan, or move subscribers from multiple insurance plans into one master plan.

AB Annual Benefits - (accesses Annual Benefits Editor screen) - Used to enter annual benefits data for the selected policy.

Annual Benefits Editor Screen

Once the benefit year is selected, this screen is displayed listing all the benefits for the selected insurance policy and benefit year. Benefit categories may include inpatient benefits, outpatient benefits, mental health, home health care, hospice, rehabilitation, and IV management.

Actions

PI Policy Information - Allows entry/edit of maximum out of pocket and ambulance coverage.

Insurance Company Entry/Edit

Introduction, cont.

IP Inpatient - Allows entry/edit of inpatient benefits data.

OP Outpatient - Allows entry/edit of outpatient benefits data.

MH Mental Health - Allows entry/edit of mental health inpatient and outpatient benefits data.

HH Home Health - Allows entry/edit of home health care benefits data.

HS Hospice - Allows entry/edit of hospice benefits data.

RH Rehab - Allows entry/edit of rehabilitation benefits data.

IV IV Mgmt. - Allows entry/edit of intravenous management benefits data.

EA Edit All - Lists editable fields line by line for quick data entry.

CY Change Year - Allows you to change to another benefit year.

View/Edit Plan Screen

This screen displays plan information for viewing/editing including utilization review info, plan coverage limitations, annual benefit dates, user information, and plan comments.

Actions

PI Policy Information - Allows entry/edit of maximum out of pocket and ambulance coverage.

UI UR Info - Allows entry/edit of utilization review information.

CV Add/Edit Coverage - Allows you to add or edit coverage limitations for a specific plan.

PC Plan Comments - Allows editing of comments for the plan.

Insurance Company Entry/Edit

Introduction, cont.

IP Inpatient - Allows entry/edit of inpatient benefits data.

AB Annual Benefits - (accesses *Annual Benefits Editor* screen) - Used to enter annual benefits data for the selected policy.

CP Change Plan - Allows you to select another plan for this insurance company without having to exit back to the previous screen.

Although this option is not locked, the MCCR System Definition Menu is locked with the IB SUPERVISOR security key.

List Inactive Ins. Co. Covering Patients

INTRODUCTION The List Inactive Ins. Co. Covering Patients option is used to provide a listing of inactive insurance companies that are listed in the system as providing patient coverage.

Occasionally, an insurance company may be in the system twice under slightly different names (i.e., Blue Cross and Blue Cross of New York) when in fact they are the same company. Once the correct name is established, it would be necessary to inactivate the incorrect name and "repoint" those patients to the correct name. This option provides the number of patients which should be repointed to another company.

Information provided on the output includes insurance company name and address and the number of patients the system shows as having coverage by that company.

Due to the brevity of this option, a process chart has not been provided.

List Inactive Ins. Co. Covering Patients

EXAMPLE

The following example shows what might appear on your screen while using this option. User responses appear in boldface type.

List Plans by Insurance Company

INTRODUCTION This report provides insurance information from both a plan and subscriber perspective. It is designed to generate lists of plans by insurance company, and lists of subscribers (policies) by insurance plan. It can be used to generate plan and subscriber lists to be used for your database clean-up efforts. Once your database integrity has been restored, the report can be used to generate a list of subscribers to particular plans or companies.

Due to the brevity of this option, no process chart is included.

List Plans by Insurance Company

EXAMPLE

The following example shows what might appear on your screen while using this option followed by an example of the output. User responses appear in boldface type.

Select Patient Insurance Menu Option: **LP** List Plans by Insurance Company

This report will generate a list of insurance plans by company. It will help you identify duplicates and verify patient coverage. You must select one, many (up to 20) or all of the insurance companies; anywhere from one to all of the plans under each company; and whether to include the patient policies (subscribers) under each plan. The number of plans you select is independent for each company you are including, but subscriber selection is the same (all or none) for all companies and plans within a report. Regardless of how you run the report, the number of subscribers per plan will be included.

1. List Insurance Plans by Company
 2. List Insurance Plans by Company With Subscriber Information
- SELECT REPORT (1 OR 2): **1**. List Insurance Plans by Company

There are 50 insurance companies associated with plans.

1. List All 50 Ins. Companies
 2. List Only Ins. Companies That You Select
- SELECT 1 or 2: **2**. List Only Ins. Companies That You Select

There are 479 plans. List all plans for each company? No// **<RET>**

List New not Verified Policies

INTRODUCTION The List New not Verified Policies option is used to produce a list by patient of new insurance entries that have not been verified. After running this report, you would use the Verify Coverage action of the Patient Insurance Info View/Edit option to verify coverage for individual patients.

You may specify a date range and patient name range to limit the parameters of the report.

Information provided on the output includes patient name and ID#, insurance company name, subscriber ID, person who made the entry, and date entered. A total count is also provided.

Due to the brevity of this option, a process chart has not been provided.
